Office of National Academic Test Program (NAT)
สำนักงานโครงการสอบวัดทักษะวิชาการระดับชาติ (สวช.)

การแข่งขันสอบวัดทักษะวิชาการระดับชาติ (สวช.) ชิงถ้วยพระราชทาน สมเด็จพระกนิษฐาธิราชเจ้า กรมสมเด็จพระเทพรัตนราชสุดาฯ สยามบรมราชกุมารี ประจำปี พ.ศ. 2567 (รอบคัดเลือกตัวแทนจังหวัด)

วิชาภาษาอังกฤษ ระดับชั้นมัธยมศึกษาตอนปลาย

รหัสวิชา อ405 ภาษาอังกฤษ

รหัสชุดข้อสอบ 405010

ชื่อ.....นามสกุล.....รหัสวิชา.....

ระดับชั้น.....ห้องสอบ.....วันที่สอบ.....สถานที่สอบ.....

คำชี้แจงการสอบ

รายละเอียดข้อสอบ	**ข้อสอบฉบับนี้มี 9 หน้า จำนวน 50 ข้อ ระยะเวลา 90 นาที**		
วิธีการตอบ	**ให้ใช้ดินสอ 2B ระบายในวงกลมที่เป็นคำตอบในกระดาษคำตอบ หรือ นำโทรศัพท์มือถือมาสแกน QR Code เพื่อกรอกและยืนยันคำตอบในระบบ**		
เกณฑ์การให้คะแนน	**ส่วน Expression**	**ข้อ 1-10**	**ข้อละ 1.6 คะแนน**
(คะแนนเต็ม 100 คะแนน)	**ส่วน Reading Comprehension**	**ข้อ 11-25**	**ข้อละ 2.4 คะแนน**
	ส่วน Structure	**ข้อ 26-40**	**ข้อละ 2.2 คะแนน**
	ส่วน Vocabulary	**ข้อ 41-50**	**ข้อละ 1.5 คะแนน**

ข้อปฏิบัติในการสอบ

1. ให้ผู้เข้าสอบปฏิบัติตามระเบียบสำนักงานโครงการสอบวัดทักษะวิชาการระดับชาติ (สวช.) ภาคีเครือข่ายโรงเรียนทั่วประเทศ และสถาบันอีซี่ลิชประเทศไทย ว่าด้วยแนวทางปฏิบัติเกี่ยวกับการดำเนินการทดสอบ พ.ศ. 2560 อย่างเคร่งครัด
2. สำหรับสนามสอบปิด ให้ผู้เข้าสอบระบายคำตอบลงในกระดาษคำตอบด้วยดินสอ 2B อย่างถูกต้องและชัดเจน
3. สำหรับสนามสอบออนไลน์ เมื่อผู้เข้าสอบนำโทรศัพท์มือถือหรืออุปกรณ์อิเล็กทรอนิกส์มาสแกน QR Code เพื่อเข้าสู่แบบฟอร์มกระดาษคำตอบ กรอกหรือเลือกคำตอบให้ถูกต้องและครบถ้วน โดยเปิดกล้อง ZOOM ยืนยันตัวตนไว้จนกว่าจะยืนยันกระดาษคำตอบเสร็จ และบันทึกภาพหน้าจอเพื่อเป็นหลักฐาน หลังกดส่งยืนยันคำตอบและปิดกล้อง

หากผู้เข้าสอบฝ่าฝืนข้อปฏิบัติโครงการ สวช. หรือมีการทุจริต จะมีการดำเนินการ ดังนี้

1. ไม่ประกาศผลการสอบจากการทดสอบดังกล่าว
2. แจ้งไปยังโรงเรียนต้นสังกัดของนักเรียน ผู้ดูแลของผู้สอบเพื่อดำเนินการตักเตือนและกล่าวโทษ
3. แจ้งไปยังผู้บริหารสถานศึกษาที่เป็นภาคีเครือข่าย สวช. เพื่อพิจารณารับเข้าศึกษา

เอกสารนี้เป็นลิขสิทธิ์ของสำนักงานโครงการสอบวัดทักษะวิชาการระดับชาติ (สวช.)
มูลนิธิโครงการสอบวัดทักษะวิชาการและโอลิมปิกนานาชาติ
การทำซ้ำหรือดัดแปลงหรือเผยแพร่เอกสารฉบับนี้จะถูกดำเนินคดีตามกฎหมาย

Part I: Expression (Items 1 – 10)
Choose the best answer.

Situation: Two friends, Emma and Liam, discussing a difficult decision Emma has to make about a job offer.

Emma: _____(1)_____ about this job offer. The pay is fantastic, but the hours are brutal.

Liam: Ah, so it's a double-edged sword. More money, but less free time. Have you thought about how it would affect your work-life balance?

Emma: Exactly! I'd be _____(2)_____ at both ends if I take it, and I'm not sure I can handle that long term.

Liam: True, that's something to think about. But, _____(3)_____, this could be a once-in-a-lifetime opportunity.

Emma: That's what makes it so hard! I don't want to work on something over my head, though. The last thing I need is to get overwhelmed.

Liam: Well, maybe you could try it out for a few months _____(4)_____. You can always leave if it's not a good fit.

Emma: I guess that's true. _____(5)_____ and not regret passing up the chance.

Liam: Exactly! You don't want to look back and wonder "what if?"

Emma: Alright, you've convinced me. I'll go for it but keep my expectations realistic. Thanks, Liam!

1.
1. I'm thoughtful
2. I'm in two minds
3. I have a mind
4. I have my conclusion
5. I wonder

2.
1. seeing the light
2. seeing the tunnel
3. burning myself
4. burning the candle
5. walking alone

3.
1. on the other hand
2. after all
3. meanwhile
4. in fact
5. taken into consideration

4.
1. and resign afterwards
2. and ask for promotion
3. and see how it goes
4. with a good salary
5. just for fun and experience

5.
1. Must think carefully
2. Will consider it twice
3. Better to take it easy
4. Better enjoy myself right away
5. Better to give it a shot

Situation: Wilson and Jake, discussing Wilson's decision to start his own business.

Wilson: I'm seriously considering leaving my job to start my own business, but I'm not sure if it's the right move. I feel like _____(6)_____ the frying pan and into the fire.

Jake: Well, going solo is definitely risky, but if you play your cards right, it could pay off big time. _____(7)_____

สนับสนุนโดย ASCEND

Wilson: That's the thing—I'm still working out the details. There's a lot to consider, and I don't want to put all my eggs in one basket.

Jake: I get that. But, at the end of the day, fortune favors the bold. You might just need to take that leap of faith.

Wilson: True, _____(8)_____ I don't want to end up back at square one, with nothing to show for it.

Jake: That's fair. Maybe start it as a side hustle? That way, you can test the waters without diving in headfirst.

Wilson: _____(9)_____ I could keep my day job for stability and gradually build up my business on the side.

Jake: Exactly! That way, you'd have a safety net in case things don't go as planned.

Wilson: Alright, you've convinced me. I'll start slow and see where it leads. Thanks, Jake!

Jake: Anytime! _____(10)_____, slow and steady wins the race.

6. 1. I'm jumping out of
2. I'm throwing away
3. I'm flipping
4. I'm burning
5. I'm in the middle of

7. 1. You know what I mean?
2. What are you up to now?
3. You should start now!
4. Do you know what to do?
5. Do you have a solid plan?

8. 1. I will start it now.
2. I need you to help me.
3. but if I don't have money?
4. What if I give up in the future?
5. but what if things go south?

9. 1. I don't buy that.
2. That's a good idea.
3. That's too difficult.
4. That's barely going to happen.
5. My boss is going to be mad.

10. 1. Start now
2. Don't forget me
3. Just remember
4. Be careful
5. Hand in there

Part II: Reading Comprehension (Items 11 – 25)

The Roman Empire

The Roman Empire remains one of the most influential civilizations in history. Founded in 27 BCE, it spanned much of Europe, North Africa, and parts of the Middle East. At its height, the empire was a vast network of cities, roads, and aqueducts, with Rome as its bustling epicenter.

The early Roman Republic laid the groundwork for the empire's expansion. Military prowess, political organization, and engineering advancements allowed Rome to dominate its rivals. The transformation from republic to empire occurred under Augustus, who became the first emperor. His reign ushered in the Pax Romana, a 200-year period of relative peace and prosperity.

Rome's economy thrived on agriculture, trade, and slave labor. The Mediterranean Sea acted as a conduit for commerce, connecting distant provinces. Roman law, a sophisticated legal system, further unified the empire, ensuring stability and order.

Despite its strength, the Roman Empire faced numerous challenges. Internal strife, corruption, and political instability plagued its later years. The empire was often divided, with power struggles between generals and emperors. Additionally, heavy taxation and reliance on slave labor slowed economic progress.

Externally, Rome faced constant threats from barbarian tribes such as the Goths, Vandals, and Huns. In 410 CE, the Visigoths famously sacked Rome, signaling the empire's vulnerability. The Western Roman Empire eventually fell in 476 CE, while the Eastern Roman Empire, known as the Byzantine Empire, continued for nearly a thousand more years.

Although the empire collapsed, its legacy endures. Roman innovations in architecture, such as the use of concrete and the arch, revolutionized building techniques. Latin, the language of Rome, evolved into the Romance languages spoken today, including Italian, French, and Spanish. Moreover, Roman law influenced modern legal systems worldwide.

The rise and fall of the Roman Empire offer valuable lessons about the complexities of power, the importance of adaptability, and the enduring impact of cultural and technological achievements.

11. Which factor contributed significantly to Rome's economic success?

1. Industrialization
2. Mediterranean trade
3. Heavy taxation
4. Advanced banking systems
5. The transformation of empire

12. What event marked the fall of the Western Roman Empire?

1. The rise of Augustus
2. The sacking of Rome by the Visigoths
3. The fall of Constantinople
4. The invasion of the Byzantine Empire
5. The abdication of the last Western emperor in 476 CE

13. What aspect of Roman innovation has had a lasting impact on architecture?

1. The invention of steel
2. The development of the Gothic style
3. The use of concrete and the arch
4. The introduction of glass windows
5. The influence of system

14. Which modern languages were influenced by Latin?

1. German and English
2. Greek and Russian
3. Italian, French, and Spanish
4. Arabic and Turkish
5. Roman and English

15. What was one external threat faced by the Roman Empire?

1. Mongol invasions
2. Attacks from the Byzantine Empire
3. Naval battles with the Phoenicians
4. The empire's vulnerability
5. Barbarian tribes such as the Goths and Vandals

The Mystery of Dark Matter

For decades, scientists have sought to understand the universe's most elusive substance: dark matter. Although it does not emit, absorb, or reflect light, dark matter makes up about 27% of the universe. Ordinary matter—everything visible, from galaxies to human beings—comprises only 5% of the universe. The remaining 68% consists of dark energy, another enigmatic force.

The concept of dark matter was first proposed in the 1930s by Swiss astronomer Fritz Zwicky, who observed that galaxies within the Coma Cluster were moving too quickly to be held together by visible matter alone. His calculations suggested the presence of a hidden mass. Subsequent research, including observations of gravitational lensing, has further confirmed dark matter's existence.

One of the most compelling pieces of evidence comes from studying the cosmic microwave background (CMB)—the faint afterglow of the Big Bang. The CMB reveals fluctuations in temperature that align with the distribution of dark matter, influencing the universe's large-scale structure.

Despite significant progress in detecting its effects, the true nature of dark matter remains a mystery. Some scientists suggest it could be made up of weakly interacting massive particles (WIMPs), while others propose axions or sterile neutrinos as potential candidates. Efforts to directly detect dark matter are ongoing, using sophisticated instruments in underground laboratories designed to shield against background radiation.

The quest to unravel dark matter's secrets continues, promising not only to deepen our understanding of the universe but also to potentially revolutionize physics.

16. Which phenomenon provides strong evidence for the existence of dark matter?

1. The expansion of the universe
2. Cosmic microwave background (CMB)
3. Gravitational waves
4. Supernova explosions
5. The Big Bang

17. What are WIMPs, axions, and sterile neutrinos?

1. Types of galaxies
2. Candidates for dark matter particles
3. Methods of detecting dark matter
4. Tools used in space exploration
5. The sophisticated instruments

18. Why are underground laboratories used in dark matter research?

1. To study cosmic microwave background
2. To prevent light interference
3. To protect instruments from background radiation
4. To simulate conditions in space
5. To distribute the dark matter

The Fermi Paradox and the Search for Extraterrestrial Life

One of the most intriguing questions in science is whether intelligent extraterrestrial life exists. The universe is vast, containing billions of galaxies, each with billions of stars and potentially habitable planets. Despite this, humanity has yet to detect any signs of extraterrestrial civilizations. This conundrum is known as the Fermi Paradox, named after physicist Enrico Fermi, who famously asked, "Where is everybody?"

An early attempt to estimate the number of active extraterrestrial civilizations was made by Frank Drake in 1961. He developed the Drake Equation, which multiplies several factors, including the rate of star formation, the fraction of stars with planets, the number of planets that could support life, and the fraction of those that might develop intelligent life. However, many of the values in the equation are highly uncertain, leading to wildly varying estimates.

One potential solution to the Fermi Paradox is the Great Filter hypothesis. According to this idea, there is a stage in the development of life that is extremely difficult to surpass. This "filter" could occur at any point, from the emergence of life itself to the development of advanced technology capable of space exploration. If the Great Filter lies in humanity's future, it could spell doom for our species.

The search for extraterrestrial intelligence (SETI) relies heavily on technology. Radio telescopes scan the skies for signals that might indicate intelligent life. However, interpreting these signals is challenging, as natural phenomena can mimic artificial transmissions. Additionally, any civilization advanced enough to send signals might be using technologies far beyond our comprehension.

Several theories attempt to explain the lack of contact with extraterrestrial civilizations. One possibility is that intelligent civilizations are too far apart in space and time to detect each other. Another theory suggests that advanced civilizations deliberately avoid contact, fearing the potential risks. Alternatively, civilizations may self-destruct before achieving interstellar communication capabilities.

The Fermi Paradox remains unresolved, but the search for extraterrestrial life continues to drive scientific innovation. Whether through direct observation or indirect methods, solving this mystery could fundamentally change our understanding of humanity's place in the cosmos.

19. What is the Fermi Paradox?

1. The apparent contradiction between the high probability of extraterrestrial life and the lack of evidence for it
2. A formula used to estimate the number of extraterrestrial civilizations
3. A hypothesis that predicts the extinction of intelligent life
4. The belief that extraterrestrial life is impossible
5. The name of the theory founder

20. Which of the following is a key component of the Drake Equation?

1. The distance between galaxies
2. The rate of star formation
3. The speed of light
4. The average lifespan of planets
5. The number of lives

21. What does the Great Filter hypothesis propose?

1. Life is abundant but difficult to detect.
2. There is a stage in the development of life that few species overcome.
3. Intelligent life evolves rapidly across the universe.
4. Advanced civilizations communicate through undetectable means.
5. The emergence of life has several origins.

22. Why might advanced civilizations choose not to contact others?

1. They lack the technological capability.
2. They fear the consequences of interaction.
3. They are unaware of other civilizations.
4. They consider communication unnecessary.
5. They lack the communication.

23. What is one challenge in detecting extraterrestrial signals?
1. Limited funding for research
2. The inability of radio telescopes to detect artificial signals
3. Natural phenomena that mimic artificial signals
4. The absence of suitable technology
5. The self-destruction of civilizations

24. According to the passage, why might civilizations self-destruct before communicating?
1. They exhaust their planet's resources.
2. They become technologically stagnant.
3. They encounter hostile alien species.
4. They develop technologies that lead to their downfall.
5. They risk their capabilities to the advanced technology.

25. What does the passage suggest about the search for extraterrestrial life?
1. It is unlikely to yield results in the near future.
2. It drives scientific and technological progress.
3. It should be abandoned in favor of other pursuits.
4. It proves that humanity is alone in the universe.
5. It can change the understanding of humanity's place.

Part III: Structure and Writing (Items 26 – 40)

26. You will not succeed_____you try harder.
1. unless
2. if
3. because
4. although
5. what if

27. I wish my friend_____his grandparents more often.
1. visit
2. visits
3. will visit
4. would visit
5. visited

28. The teacher insists that every student_____their homework before class.
1. completes
2. must complete
3. has completed
4. complete
5. should complete

29. The team leader had to_____the meeting due to a task emergency.
1. call off
2. call out
3. call up
4. call in
5. call of

30. The applicants_____the job application form and submitted it online.
1. filled in
2. filled up
3. filled out
4. filled over
5. filled with

31. My classmate has_____patience when it comes to waiting.
1. little
2. few
3. a little
4. a few
5. none

32. They_____in the garden for hours before it started to rain.
1. have been working
2. had been working
3. worked
4. were working
5. are working

33. They live in a_____apartment downtown.
1. two-bedroom
2. two-bedrooms
3. two bedroom
4. two bedrooms
5. two-bed-room

34. He is_____to his colleagues for their assistance.
1. thankful
2. thankful of
3. thankful to
4. thankful for
5. thankful with

35. No sooner_____the train than it started to rain.
1. did they leave
2. they had left
3. have they left
4. had they left
5. they have left

Directions: Choose the answer which is grammatically <u>incorrect</u>.

36. **(1)** **<u>Having completed</u>** their exams, the students **(2)** **<u>were eager</u>** to embark on their summer vacation, **(3)** **<u>which</u>** they **(4)** **<u>have been planning</u>** for **(5)** **<u>several</u>** months.

37. The teacher, **(1)** **<u>along with</u>** her students, **(2)** **<u>are organizing</u>** the annual event **(3)** **<u>which</u>** will **(4)** **<u>be held</u>** at the hall **(5)** **<u>right after</u>** the final exam.

38. **(1)** **Although** the software developers had worked **(2)** **<u>tiredlessly</u>** on the project, the release was delayed **(3)** **<u>due to</u>** issues that needed **(4)** **<u>to be addressed</u>** before it **(5)** **<u>could be</u>** launched.

39. In recent years, **(1)** **<u>there has been</u>** a significant **(2)** **<u>rise</u>** in the number of students **(3)** **<u>who prefer</u>** online courses **(4)** **<u>to</u>** traditional **(5)** **<u>classroom-based</u>** education.

40. **(1)** **<u>While</u>** the board of directors **(2)** **<u>were pleased</u>** with the company's performance **(3)** **<u>last quarter</u>**, they emphasized **(4)** **<u>the importance</u>** of remaining vigilant **(5)** **<u>about</u>** the potential economic downturn.

Part IV: Vocabulary (Items 41 – 50)

<u>Complete the sentence with the appropriate vocabulary</u>

41. The teacher gave a_____explanation of the topic, making it easier for students to understand.

1. vague
2. concise
3. lengthy
4. predictable
5. reasonable

42. The government has taken measures to_____inflation and stabilize the economy.
1. impede 2. accelerate 3. curb 4. abandon 5. allocate

43. The research was conducted to_____the impact of social media on teenage behavior.
1. scrutinize 2. exaggerate 3. dismiss 4. avoid 5. contemplate

44. The scientist's theory was difficult to understand due to the_____nature of her language.
1. simplistic 2. convoluted 3. transparent 4. straightforward 5.eradicated

45. His proposal was met with strong_____from the board, as they were skeptical about its feasibility.
1. acclaim 2. resistance 3. encouragement 4. affirmation 5. agreement

46. The new policy aims to_____waste and promote sustainability in the workplace.
1. mitigate 2. vibrate 3. instigate 4. facilitate 5. vulnerate

47. My sister had to_____between accepting a job offer abroad or staying with the family.
1. elucidate 2. deliberate 3. adjust 4. revert 5. access

48. The storm caused_____damage to the coastal town, affecting many homes and businesses.
1. trivial 2. widespread 3. minor 4. minimal 5. unknown

49. After the heated argument, there was a/an_____silence between the two friends.
1. joyful 2. immediate 3. supportive 4. adequate 5. uncomfortable

50. The scientist conducted experiments to_____the accuracy of her hypothesis.
1. refute 2. confirm 3. dismiss 4. overlook 5. dilute
